### REFERENCE

Available upon request

### PROFILE

Full-Stack Developer focused on scalable architectures, backend systems, deployment workflows, and performance-driven web applications using modern JavaScript technologies.

### WORK EXPERIENCE

#### Full-Stack Web Developer (Freelance) May 2026

- Built and deployed a business website with custom admin CMS using React, Supabase, and Cloudflare
- Implemented email automation, secure admin access, SEO, analytics, and deployment workflows
- Configured DNS, SSL, Cloudflare Pages, and production hosting infrastructure

#### React Native Developer - Codevertiser Mar 2026 - Apr 2026

- Refactored and modernized a mobile quiz platform with Supabase and TanStack Query
- Built authentication, gamification systems, real-time features, and backend integrations
- Improved scalability, maintainability, and production readiness across the application

#### Contract Software Engineer (Freelance) Aug 2025 - Sep 2025

- Developed a full-stack POS and inventory management system for retail operations
- Implemented JWT authentication, role-based access, analytics, and real-time session tracking
- Delivered complete system from planning to deployment within one month

#### Frontend Developer - International Client Jul 2025 - Jan 2026

- Rebuilt and modernized a legacy website using HTML5, CSS3, and JavaScript
- Developed responsive interfaces and workflow-based interactive user guides
- Collaborated directly with an international client from planning to delivery

### PROJECT EXPERIENCE

#### Chyloo - Social Media Platform

Full-stack platform with real-time messaging, posts, likes, and user notifications.

#### Trackio - Website Analytics Platform

Custom analytics platform with embeddable tracking scripts, real-time dashboard metrics, and secure multi-domain event processing.

### EDUCATION

#### Bachelor's in Computer Science

Muhammad Ali Jinnah University

Expected 2029
